Also, we presently have on file a number of applications from facilities which are not licensed by DEP. We consider many of these to be "protective filings" i.e. applications for activities not yet being conducted, such as: Storing wastes which have not been listed as hazardous by DEP or EPA; or storing for over 90 days if necessary in the future. In order to maintain consistency between the State and Federal programs, we are either returning the applications or sending special acknowledgements pointing out the necessity of obtaining a State license. These facilities are:
